new policy should be adopted.

MD seconded and all in favour.

KB also proposed that should there not be a meeting in the time span regarding a 'Governors discretion' decision the Chair of Resources and 2 other nominated Governors could make the decision. PH seconded this.

5. AS advised that an MTA had left her position at short notice but we had been able to replace her with a candidate who had already been interviewed. AS gave out copies of the job specification for the new Assistant Head role, answering questions from the governors and this was discussed. The role will be advertised internally. JH reiterated that the 3 Assistant Heads will need to work together to reduce the pressure of the Headteachers role. LW added that regarding the internal application, 'Good' schools should develop their staff and it would be good practice that there is a successor who could step into the Headteacher's role easily if required. KB suggested removing the paragraph in the job description that 'it could be changed at any time.'

MP recommended that the job be advertised subject to the above amendment and this was seconded by JH.

The caretaking tasks audit was looked at by the Govs and agreed that this should be monitored to ensure that the school was getting value for money. MP was happy to check monthly and Resources would add this to the meeting agenda. It was also suggested that the Resources Committee should walk the property occasionally.

6. AS distributed details of the PE Grant and Pupil Premium funding. It was asked if they could have a breakdown of the % of interventions used and the money they cost to ensure that Pupil Premium children are targeted and the impact of the interventions should be seen. JH will look at this on a Governor visit and report back to the committee. JH asked if say £100 per child of pupil premium money could be put aside to help buy uniform, pay for school trips, outdoor coat etc. AS advised that he would find out how other schools do this.

The PE grant was received and discussed.

7. AS is expecting another consultation to be with the school soon regarding which parts of the LA service we

wish to de-delegate. We have ongoing issues with	
Admissions – we no longer have a nominated person in the department, the staff in Exeter do not know the	
school and we have been asked to go over PAN even though other local schools have spaces in the year	
groups required. The only impact if we did not have the	
backing of Admissions would be the Appeal service. PH asked if we could use the ACCT as an Appeal	
Committee. If this is de-delegated the school needs to	
decide best value for spending that money. KB proposed that we push for independence regarding	
Admissions and this was seconded by MD.
